

**M-1187****Leg press
CIRCUIT**TECHNICAL SPECIFICATIONS:

- 3 mm reinforced steel chassis.
- Anti-oxidation treatment and special protection at the welding points.
- 200^g polyester powder coating, black matt finishing.
- Oscillating anatomical seat and back rest, non-deformable under pressure, manufactured by injection of polyurethane (foam)
- Seat with shock absorbing stopper.
- Antibacterial upholstery MRSA Standard, SANITIZED, Fireproof M2 Standard, UNE 1021, absence of solvents and noxious substances OEKO-TEX Standards.
- Red-trimmed upholstery.
- Non-porous injected grips made of rubber material.
- Wide non-slip support platform.
- 45 mm hydraulic piston with oil and nitrogen inner tanks.
- Regulation of hydraulic resistance in 6 positions.
- Dimensions: 136x54x119 cm.
- Commercial use suitable for rehabilitation.
