

M-550 HITT curved treadmill

TECHNICAL SPECIFICATIONS:

- Reinforced structure that offers great strength and durability.
- Curved running surface that allows for more natural and efficient movement than a flat running surface. In addition, it can help reduce stress on joints and improve posture.
- Non-motorized propulsion. Self propelled (it is the user himself who propels the treadmill with his movement).
- Manual braking system with 4 resistance levels.
- Running surface: 160 x 48 cm.
- LCD display with quick start and 7 work options:
 - 10/20 interval
 - 20/10 User-customizable interval
 - Target work: target time, target distance, target calories and target heart rate.
- Wireless 5.3 kHz pulse receiver (chest belt not included).
- Includes bottle holder.
- Includes grip on the back and wheels on the front for easy transport of the machine.
- Maximum user weight: 180 kg.
- Dimensions: 187x94x166 cm.
- Weight: 171,5 kg.
- Commercial use.
